PROFESSIONAL SUMMARY

Machine Learning-focused Data Scientist with a strong engineering background and a Data Science certificate from Le Wagon (December 2025). Experienced in building end-to-end machine learning systems, from data processing and model training to deployment and monitoring. Combines control engineering foundations with applied ML to deliver scalable, production-ready solutions.

TECHNICAL SKILLS

Machine Learning & Data Science: Python, SQL, Pandas, NumPy, Scikit-learn, TensorFlow, Keras

Modeling & Analytics: Feature Engineering, Model Evaluation, Statistical Analysis

MLOps & Deployment: REST APIs, Streamlit, Google Cloud Platform, MLflow, Docker, Git

Engineering Foundations: Control Systems, Signal Processing, FPGA / VHDL (foundational), Embedded C, AutoCAD

PROJECTS

NoDoze

AI-Powered Driver Fatigue Detection

- Designed and trained ML models for real-time driver drowsiness detection
- Built a full inference pipeline with REST API and Streamlit live demo
- Deployed and monitored models on Google Cloud; collaborated using Agile & GitHub

Sales Demand Forecasting

- Developed forecasting models and feature pipelines; translated predictions into business impact

EXPERIENCE

Data Analyst — Group YC | Montreal, Canada

(2025)

Healthcare & Airbnb analytics projects supporting strategic decisions

- Built analytical pipelines and ML-ready datasets using Python and SQL
- Performed demand, pricing, and risk analysis; delivered insights to stakeholders

Data Analytics(Freelance & Personal Projects) | Remote

(2023–2024)

Applied ML and data science across multiple real-world datasets

- Cleaned and engineered features using Python, SQL, Pandas, and NumPy
- Trained and evaluated ML models; performed statistical analysis for trend detection
- Built Tableau dashboards and analytical reports to communicate model outputs

FPGA Engineering Intern — HexoSys | Malaysia

(2021–2023)

- Designed and validated FPGA modules using VHDL; supported embedded C development

EDUCATION

Le Wagon

Data Science & AI Certificate | Montreal

(Dec 2025)

- End-to-end ML, cloud deployment, and data products

M.Sc. Control Engineering, Azad University, Tehran

B.Sc. Electrical Engineering, Azad University, Kermanshah

LANGUAGES

English (Fluent) | French (Learning)
